

IRWELL

HILL

RESIDENCES

Welcome To Irwell Hill Residences

In its storied history, the Irwell Bank estate was an enclave of luxury homes to some of Singapore's most prominent families.

Today, we pay homage to its resplendent glory, with a bold new residential development rising in its stead. With heritage raintrees conserved and seamlessly integrated within its two towers, Irwell Hill Residences is where one can live better amidst nature while seeking respite even in the heart of one of Asia's most cosmopolitan cities. Future-ready and designed for those who delight in contemporary comfort, this development is set to be a new icon of premium luxury in prime District 9, at a new address created for the distinguished few.

A Pedigree For Prestige

At CDL, we embrace an enduring passion to set new benchmarks and redefine luxury.

As one of the first luxury property developers in the Leonie Hill and Grange Road enclaves, CDL has a unique pedigree at crafting fine architectural masterworks that have become beacons of this prestigious neighbourhood.

Continuing the legacy of fine work with developments like New Futura, Gramercy Park, Nouvel 18 and Boulevard 88, Irwell Hill Residences is set to be a worthy addition to CDL's proven portfolio of luxury homes in the city.

Live Better

Imbued with a sense of progressiveness, Irwell Hill Residences is designed for modern living set against a backdrop of a lush landscape where one can enjoy the finer things in life. Apart from the contemporary architecture of its two 36-storey towers built around the heritage raintrees, your new home is also inspired with a passion for sustainability. Besides fitting adaptive furnishings for better living and working at home, Irwell Hill Residences also incorporates a variety of far-sighted co-working spaces throughout its expansive common areas at different levels.

Inspired And Progressive

The acclaimed architects behind Irwell Hill Residences

Widely respected for award-winning build quality, CDL commissioned the world-renowned architecture practice MVRDV from the Netherlands and ADDP from Singapore to create Irwell Hill Residences. Configured to optimise the living environment, the architecture by MVRDV & ADDP seamlessly integrates the conserved heritage raintrees into the landscape while placing attention to the details within the grounds. Incorporating the efficiency of a sustainable construction method, the architecture also connects the botanical landscape with the outdoor spaces of the balconies to create a green and enjoyable dwelling experience. Envisioned by MVRDV, the champagne gold pixel-patterned façade of the two towers is a deliberate departure from the predictable, while injecting a bold breath of design to Singapore's skyline.

Progressive And Practical

At Irwell Hill Residences, each unit comes with marble flooring in the living and dining room and is made to inspire and delight. However, contemporary living at Irwell Hill Residences isn't just stylish. From thoughtful touches that allow one to transform spaces for working at home to designs that incorporate sustainable materials, it is also highly functional to suit various lifestyle needs.

The Art Of Being Adaptable

Built-in within the Studio and 1-Bedroom + Study units, there are also bespoke countertops that can easily be converted into workstations, extended preparation spaces and dining tables. How you style and use your space is flexibility that you can enjoy.

The details in your home truly matter, especially when it is curated with a focus on high quality. In your home, you will find bathrooms finished with branded fittings from Gessi and sanitary ware from Geberit, and a kitchen equipped with appliances from Miele and Bosch.

Luxuriate In Comfort

Luxury is about being in the heart of the city and yet away from the hustle and bustle of downtown living. It is here that you can find exquisitely planned spaces so you can relax in sheer comfort, knowing your home is a well-designed abode.

Grounded In Sustainability

Irwell Hill Residences is a proud recipient of the BCA Green Mark Gold^{Plus} award. This ensures that you can take pleasure in a home that not only provides the best of modern comforts, but does so with your interest – and that of the earth – at heart.

Passive Cool Design Architecture

- Designed to reduce direct West-facing units
- Units are designed with balconies and/or other sunshading elements such as horizontal ledges and tinted window glass to reduce direct sunlight penetration into unit interior

Environmental Quality and Protection

- Use of environmentally friendly products certified by approved local certification bodies
- Use of low Volatile Organic Compounds (VOC) paints for internal walls to reduce indoor air pollution
- Conservation of existing raintrees and large expanse of lawn

Energy Efficiency

- Provision of energy efficient air-conditioners for all units
- Efficient lighting design with use of LED lighting and motion sensors
- Energy efficient lifts with Variable Voltage Variable Frequency (VVVF) drive, sleep mode and regenerative power feature

Water Efficiency

- Water efficient fittings provided for all units

Other Green Features
